

A-Mark Precious Metals Reports Fiscal Fourth Quarter and Full Year 2015 Results

September 23, 2015

SANTA MONICA, Calif., Sept. 23, 2015 (GLOBE NEWSWIRE) -- **A-Mark Precious Metals, Inc.** (NASDAQ:AMRK), a full-service precious metals trading company and an official distributor for all the major sovereign mints, reported results for its fiscal fourth quarter and full year ended June 30, 2015.

Fiscal Q4 2015 Financial Highlights (compared to the same year-ago quarter)

- Revenue increased 3% to \$1.45 billion, due to higher demand for gold and silver products.
- Gross profit margin increased 17% to 0.41%, due primarily to improvement in premium spreads.
- Selling, general and administrative expenses increased 33% to \$4.1 million, due to costs associated with the new logistics center, as well as increased public company expenses.
- Net income increased 66% to \$2.6 million from \$1.5 million, due to higher gross profits and one-time tax benefits.

Fiscal Q4 2015 Financial Results

Revenues increased 3% to \$1.45 billion from \$1.41 billion in the same year-ago quarter, driven primarily by higher gold and silver ounce volumes, which were offset by lower commodity prices.

Gross profit increased 20% to \$5.9 million (0.41% of revenue) from \$5.0 million (0.35% of revenue) in the same year-ago quarter. The increase in gross profit was due, in part, to higher gross profits from custom coin programs.

Selling, general and administrative expenses were \$4.1 million, an increase from \$3.1 million in the same year-ago quarter. The increase was due to the costs related to the opening of the new logistics center, as well as expenses associated with being a public company for the entire year.

Net income increased 66% to \$2.6 million, or \$0.36 per diluted share, from \$1.5 million, or \$0.21 per diluted share, in the same year-ago quarter. The increase was primarily due to higher gross profits and certain one-time tax benefits, which were offset by higher selling, general and administrative expenses.

Fiscal 2015 Financial Results

Revenues increased 2% to \$6.07 billion from \$5.98 billion in fiscal 2014. The increase was primarily due to higher sales volume of silver ounces, which was partially offset by lower commodity gold prices and lower market volatility.

Gross profit was \$24.5 million (0.40% of revenue) in fiscal 2015, a decrease from \$27.4 million (0.46% of revenue) in fiscal 2014. The decrease in gross profit was primarily due to lower premium spreads on the company's primary products, which were offset by higher sales volumes of primary silver products and higher-margin value-added products.

Selling, general and administrative expenses increased 10% to \$17.1 million from \$15.6 million in fiscal 2014. The increase was primarily due to the costs related to the opening of the logistics center, as well as full one-year costs associated with being a public company.

Net income totaled \$7.1 million, or \$1.00 per diluted share, a decrease from \$8.3 million, or \$1.09 per diluted share, in fiscal 2014, which was primarily due to lower gross margins and higher costs.

Management Commentary

"Fiscal Q4 marked our fifth consecutive quarter of profitability as a public company," said A-Mark CEO, Greg Roberts. "During the quarter, we continued to execute on our growth plan by expanding our trading capacity along with our higher-margin services and value-added product pipeline—all designed to increase revenues and profitability.

"The success of our execution was evidenced by the 20% improvement in our gross profit during the fourth quarter compared to our gross profit in the same year-ago quarter. Our financial performance also reflects the solid potential of our business model, which is structured to provide consistent profitability in all market environments, while offering opportunities for significantly higher revenue and gross profit when we see increased volatility and demand for our products.

"Along those lines, we have recently experienced a strong surge in precious metals demand and volatility, driven by the weakness in the Euro, as well as the economic uncertainty in Greece, Asia and the U.S. equity markets. These macroeconomic events greatly benefit our core trading business, because it allows us to expand our volumes and trade tickets, along with our premium spreads on precious metals.

"In addition to capitalizing on the current market environment, we continue to pursue business development initiatives, which can provide us with greater capacity and more direct influence over our profitability. These initiatives include further expanding our value-added service offerings, like storage and logistics. Our new Las Vegas logistics facility is now operational, and we expect it to provide operational cost savings and synergies beginning in our fiscal second quarter.

"Looking ahead, we have entered fiscal 2016 on a strong footing, with significant operational and financial momentum. We hope to capitalize on this momentum throughout the fiscal year, and believe we are seeing initial signs of increased revenues and profitability."

Through its A-M Global Logistic subsidiary, the company offers storage and order fulfillment services to our retail customers.

Important Cautions Regarding Forward-Looking Statements

Statements in this press release that relate to future plans, objectives, expectations, performance, events and the like are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and the Securities Exchange Act of 1934. Future events, risks and uncertainties, individually or in the aggregate, could cause actual results to differ materially from those expressed or implied in these statements. Factors that could cause actual results to differ include the following: the failure to execute our growth strategy as planned; greater than anticipated costs incurred to execute this strategy; the favorable results that we are experiencing in the first fiscal quarter of 2016 not being indicative of activity for the full fiscal year; changes in the current international political climate which has favorably contributed to demand and volatility in the precious metals markets; increased competition for our higher margin services, which could depress pricing; the failure of our business model to respond to changes in the market environment as anticipated; general risks of doing business in the commodity markets; and other business, economic, financial and governmental risks as described in the Company's public filings with the Securities and Exchange Commission.

The words "should," "believe," "estimate," "expect," "intend," "anticipate," "foresee," "plan" and similar expressions and variations thereof identify certain of such forward-looking statements, which speak only as of the dates on which they were made. Additionally, any statements related to future improved performance and estimates of revenues and earnings per share are forward-looking statements. The company undertakes no obligation to publicly update or revise any forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements.
